

HealiAid[®]

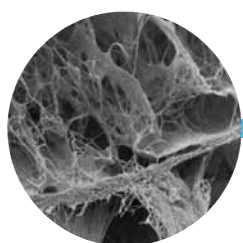

Collagen Wound Dressing
MOHW-MD-No. 004222

Best Choice For Oral Soft Tissue Hyperplasia

Application

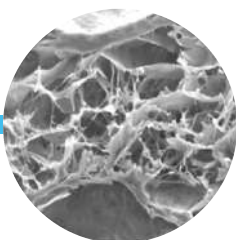

- ① Periodontal defect surgery
- ② Wound repair after tooth extraction
- ③ Oral surgery treatment
- ④ Control bleeding from oral wounds

Feature

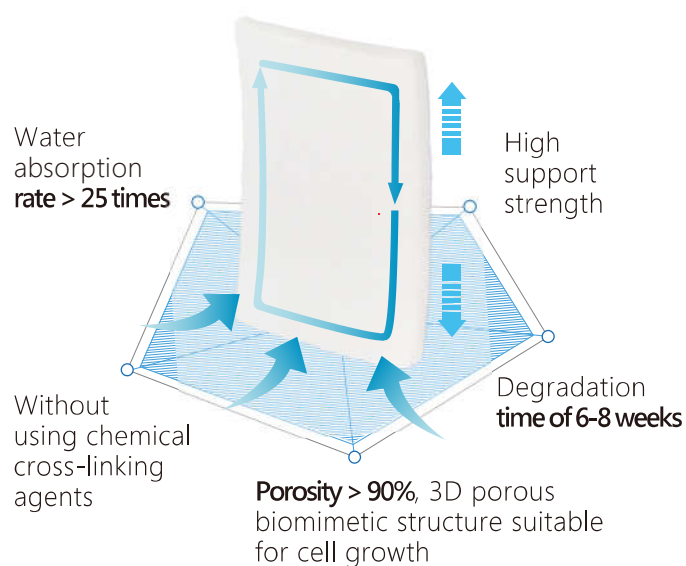

HealiAid

High similarity

Extracellular matrix (ECM)

Advantage

1 Highly purified type I collagen

HealiAid Collagen Wound Dressing is made from natural collagen extracted from bovine tendon tissue.

2 Effectively promotes wound healing

The porous and highly porosity sponge structure absorb blood and wound secretions and promote platelet aggregation. Filling wounds with HealiAid can prevent persistent cracks caused by the contraction of blood clot or bacterial infection from saliva contamination.

Specification

● 20mm x 40 mm

● 15 mm x 20 mm

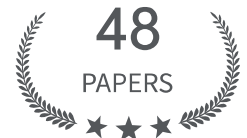

● 25 mm x 30 mm

Catalogue	Specification (1 unit/box)
SA 204030	20 mm x 40 mm x 3.0 mm
SA 152005	15 mm x 20 mm x 0.5 mm
